CMSC 491-01, Fall 2018

<div align="right">Dr. George Ray</div>

<div align="center">**Project** 1: Social Media Mining Twitter</div>

Handed out Wednesday, September 26.
Due Monday, October 15.

Assignment.
   Prepare a Python program to analyze tweets for Coca Cola and Pepsi, which you have
   loaded into Mongodb. For each tweet returned, print the text, along with its
   corresponding sentiment and lexical analysis.
